

March 23, 2020

Dapper Dan's is committed to serving our community through these difficult times.

The carwash industry has been working with leaders Statewide and it is our understanding that the Express Exterior Car Wash industry is currently classified as a necessary business under the Federal Transportation Guidelines. The necessity to keep vehicles clean and safe makes our service not only important, but part of the solution. Studies have found that the Covid-19 virus can live for days on metal and plastic. Keeping service vehicles clean and sanitary provides just one way we can help those working to keep safe, as well as keep our economy moving.

After closing Friday 3/20/2020 to properly assess the situation, Dapper Dan's has reopened Monday morning 3/23/2020 from 7am to 7pm.

We have limited the number of employees working at any one time to provide safe social distancing. Customers will also be asked to only interact with the pay stations, which accept cash and credit card. Credit card is the preferred payment method during this time. Our employees will be using special cleaning solutions for any contact points, which are very limited at our wash.

As a further precaution we are discontinuing our vacuum stations to limit any contact points as well as to provide social distancing. This will remain in effect until we have been notified that these restrictions may be lifted.

As a special thank you to all our Healthcare workers, Dapper Dan's would like to provide you with a free Car Wash. We know you are working hard, and it is our honor to provide you with a small token of our appreciation. Please just flash your badge or ID (keeping your window up) and we will take care of the rest. Please let your fellow workers know as well, we look forward to taking care of you, as you work to take care of us!

Sincerely,

The Dapper Dan Team
